

Quantum walks

Ashley Montanaro

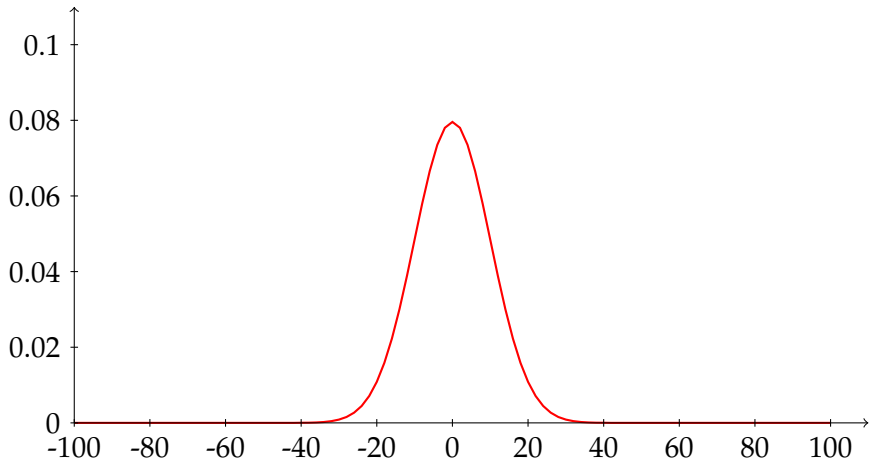

Department of Computer Science, University of Bristol
Bristol, UK

February 10, 2015

Random walk on the line (even times)

Random walk on the line (100 steps)

Hadamard walk on the line (even times 0-10)

Hadamard walk on the line (even times 12-100)

Quantum vs. classical walk on the line (even times 12-100)

Quantum vs. classical walk on the hypercube
